

Oscar O'Reilly

Product & Industrial Designer

Brighton, United Kingdom

Curriculum Vitae 2026

Profile

Product and industrial designer taking ideas from first sketch to manufacturable object. Over the past year I have designed and delivered 30+ projects for leading brands across CAD, rapid prototyping and fabrication. My own practice centres on mechanical smart lamps, where movement, light and electronics meet.

Experience

09.2025–09.2026

Product Designer, Fuel4 Staines, Surrey

- Designed and delivered 30+ projects for leading brands.
- Proposed a £10,000 high-end 3D printer investment to managers and design leads, then installed it, bringing more manufacturing in-house.
- Translated client visions into manufacturable solutions on short timelines, using new manufacturing methods.
- Integrated Claude Code into the studio's design process.

Awards

Duke of Edinburgh's Award, Bronze
